ART DESIGN

One of the more modern colour palettes and a top choice for interior designers is the Art Design collection. The unique, soft texture of the coating will introduce a warm, cosy feeling in any room, making it stand out. The variety of colours will help make it look simple yet sophisticated, providing excellent opportunities to introduce additional decorations and make a place your own.

ART DESIGN

One of the more modern colour palettes and a top choice for interior designers is the Art Design collection. It provides a wide selection of bright, rich colours that will make any room stand out. The coating also comes with an added benefit – a wonderful, silky texture, making the space feel elegant and cosy. The Art Design collection is an excellent choice for creating a bright, unique interior that will request attention of anyone in the room.

Ecoline 751

ECOLINE

Ecoline is a collection of delicate pastel colours that are complemented by gold and silver-coloured threads. The collection is especially beloved among homeowners. This is because the pattern creates a beautiful, effortless result and brightens up the room, creating a peaceful, cosy atmosphere. The application possibilities are endless. Apply as a single tone or combine with other types of coatings – your imagination is the limit!

Eco-Friendly Wall Covering

East 956

NORD

The calm and sophisticated colours of the Nord collection will brighten up any room and highlight your individual taste. The coating will complement a strict formal office style, refresh any living room interior and bring cosiness to your bedroom.

East 956

SOUTH, EAST, WEST

South and East collections have all the shades of the southern latitudes and a unique, oriental flavour encompassing the sun, sea, sand and beautiful sunsets. This decorative material makes it easy to show your personality and add a special touch to the interior. These collections will be a perfect choice for those favouring bright interiors. The rich colours and stylish textures will transform the room and enable you to match any modern design trends.

The ideal balance of colour saturation and volume is the main advantage of the West collection. The comparatively low-key, noble shades of the coating will no doubt become an adornment of any living area within residential or commercial spaces.

RELIEF

Multifunctional finishing material is every buyer's dream. The selection of coatings within the Relief collection will not only provide a beautiful interior but, because of their rich texture, will also effectively hide any irregularities on the walls. Therefore, significantly reducing overall renovation time.
